Short answer...yes. More people than we ever hoped for have expressed interest.

Ok, thanks Bruce – I'll miss seeing you! Are you getting a lot of Class VI applications all of a sudden?

Greg- Someone from HQ will be on the call at 4 PM. Technically I'm supposed to be off but actually I will be covering another UIC-related meeting at 4 PM otherwise I would have attended. But Sharon Newman should be able to answer all the questions if Region 9 can't. Usually they can and have been able to handle things. Bruce

Hi Greg. Yes, that's the correct path to take in Molly's absence. I will work with Dan and Sharon and in turn we'll confer with Region 9 and set something up in a reasonable amount of time.

We will get you back an answer regarding the other questions about FR and the GSDT. Thanks, Bruce

I received an auto-reply from Molly to direct questions to Daniel and Sharon while she is out of the office. See original message below. Thank you, Greg

Subject: San Joaquin Renewables GS Project

David/Calvin/Molly and Bruce:

You may recall we spoke last fall regarding the San Joaquin Renewables GS Project. We are currently finalizing the permit application materials and thought it would be a good idea to touch base with you to ask some clarifying questions. Do you have availability in the next few weeks for a virtual meeting?

Also, would you be able to send me a copy of the "Financial Responsibility Cost Estimation Tool?". I've put in a request to register at the GSDT where I believe I can get access to the Cost Estimation tool, but it would be a help if you can send us that in the meantime if it's easy. Thank you, Greg
